KWIK KLEEN – Dockage Cleaners

Used for sizing barley & removing small seeds and other dockage.

ELECTRIC & HYDRAULIC

ELECTRIC 772 MODEL SHOWN

All models are available with electric or hydraulic drive mechanisms, and feature easily changeable screens. More than 20 screen sizes are available to accommodate many commodities and are great for sizing malt barley or removing canola from lentils and soybeans.

Reduce your dockage and chances of heating by pre-cleaning your grain before shipping or storing.
